INVEST IN EDUCATION!

Your tax deductible donation to our school will help us raise critical funds needed to ensure a successful learning environment for all of our students. By investing in our students, you are investing in your future, as they will one day become innovative, positive leaders of our community and beyond.

INVEST IN FUN!

One of our primary goals is to build a new playground. We had to remove the previous playground as it was no longer safe for students to play on. During these unprecedented times, our students have shown bravery, courage and more resilence than we could have ever imagined. Their little worlds have been turned upside down. The least we can do is provide these kids with a space where they can be kids!

INVEST TODAY!

No donation is too small. Every dollar and every amount counts!
Please see our attached donation form on how to donate.
